ABOUT ME

Dedicated and detail-oriented System and Network Administrator with approximately nine years of professional experience in managing, maintaining, and troubleshooting IT and network infrastructure. Skilled in LAN/WAN environments, Linux server administration, network configuration, hardware and software support, system maintenance, and CCTV installation and configuration. Experienced in diagnosing technical issues, maintaining reliable network performance, and supporting day-to-day IT operations. Strong problem-solving skills with a commitment to maintaining secure, stable, and efficient IT systems.
